# WHAT ARE YOU ALWAYS PROTECTING™ AND WHAT ARE YOU ALWAYS PROTECTING™ IT FROM?

Built on the principles of Industrial Engineering, Safety, and Security, for over 30 years Sinisi has provided innovation, design and authority on the use of fire barriers and enhanced fire barriers to contain and protect all types of infrastructure, critical equipment, people, places and things.

We bring our Subject Matter Expertise and experience to every client and understanding the **“Voice of the Client”** is always the first step.... At Sinisi, we want to know what are you protecting and what are you protecting it from so we can offer you World Class **“Safe By Design”** solutions that meet your goals and objectives... Always Protecting™.

# WE PROVIDE

Critical Infrastructure Protection

Transformer Fire Barriers

Enhanced Fire Barriers

# CLIENTS PROTECTED

TURN-KEY SOLUTIONS

# CASE STUDY GIS SUBSTATION USING SINISI SOLUTIONS

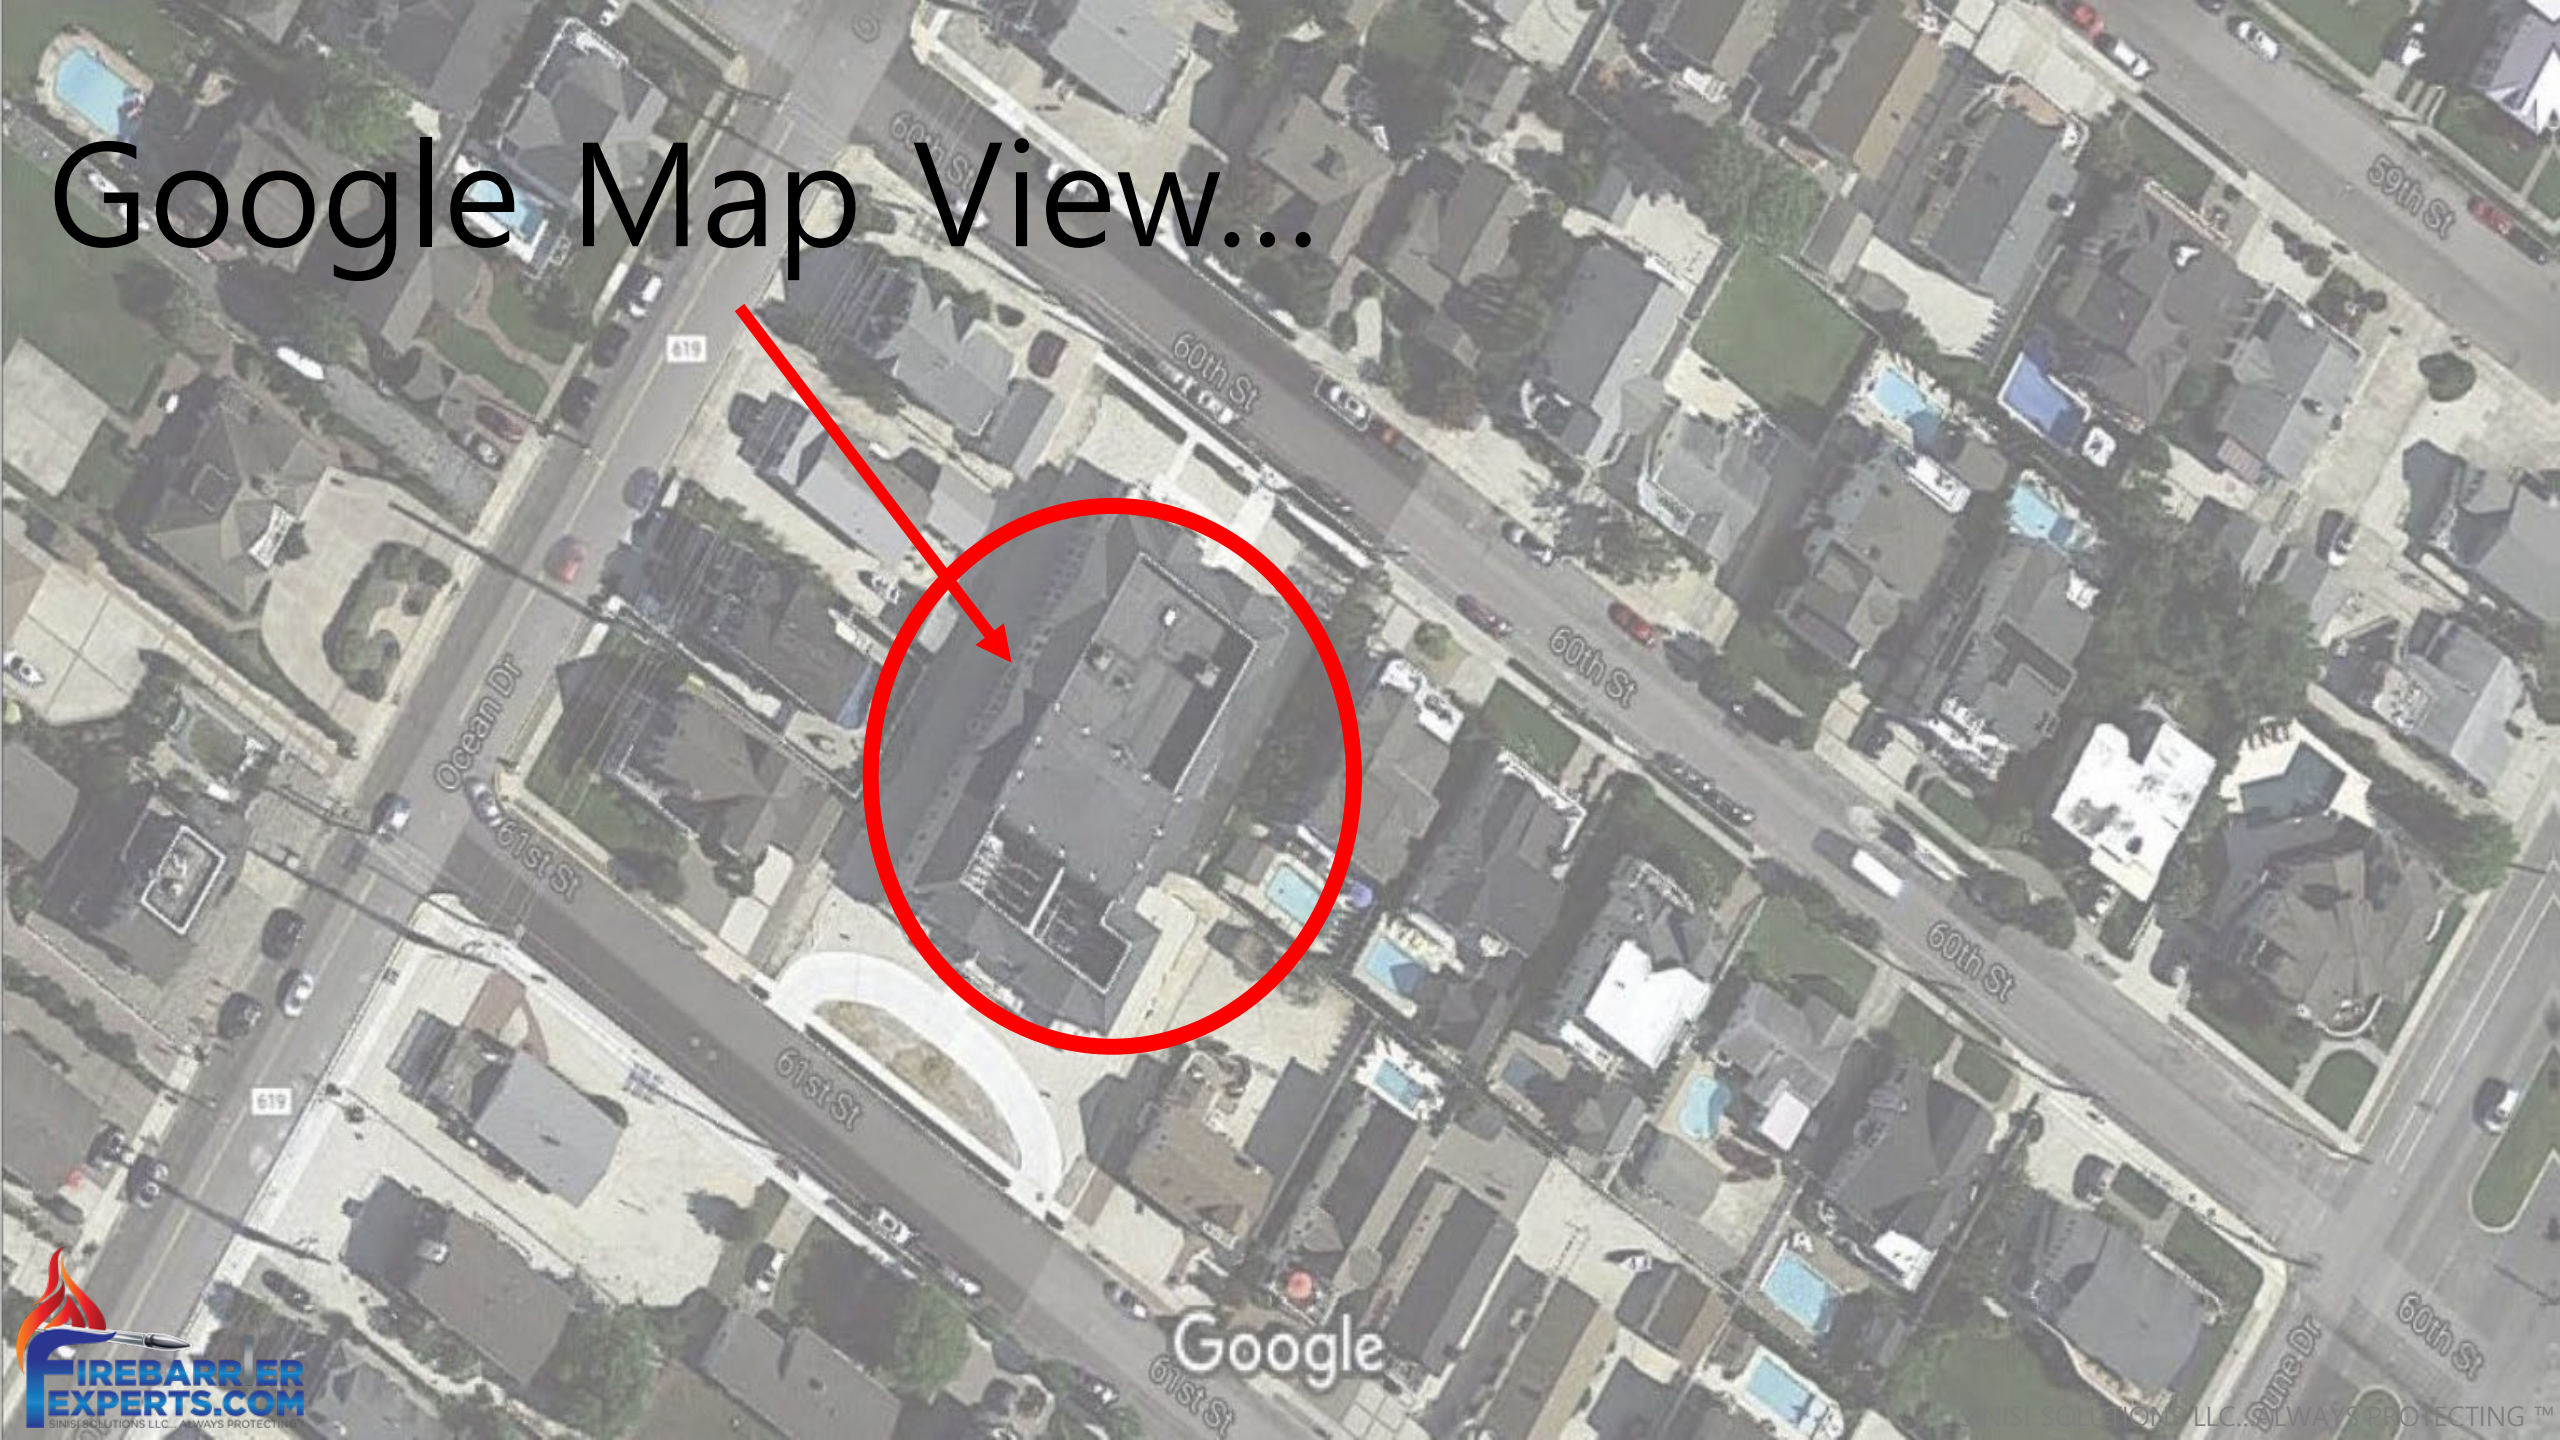

# Jersey Shore...Typical Beach Street

# Google Map View...

# Duplex Beach House...Or Dual Circuit 69k Substation?

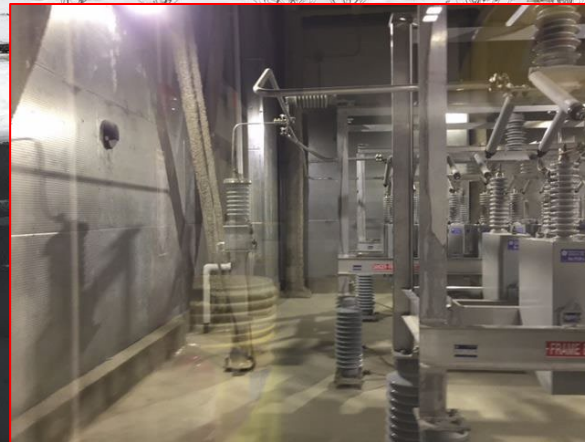

SUBSTATION  
282 60TH ST

Large doors surrounding  
the "windows" for easy  
access

"Decks" are fake- not  
accessible

69k Substation located in the heart of a shore community...

# Sinisi Solutions

Provides the neighbors with:

- **Fire Barrier**- Both sides up to 1200C
- **Noise and Vibration**- Suppression to 29db
- **Appearance**- Blends in with community
- **Explosion**- Transformer explosion and IED
- **Safety**- Exceeds all current parameters
- **City**- Exceeded all expectations, very happy!
- **Neighbors**- No parties, parking, nor noise
- **Utility**- Meets town demands- liability

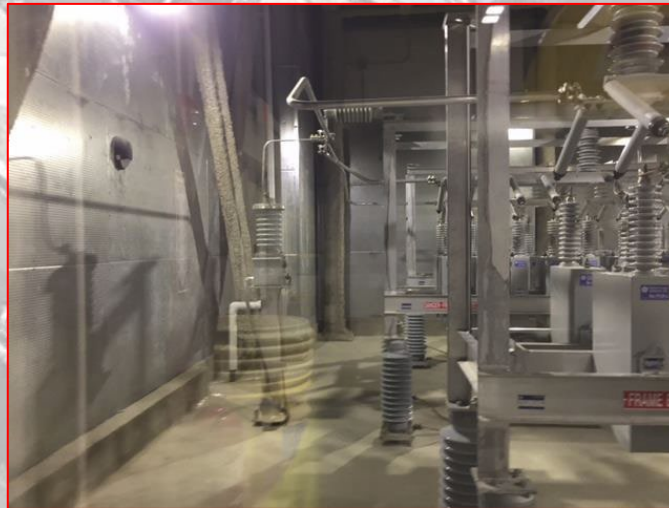

# Sinisi Solutions

## How it's done...

A propriety fiber/ cement mixture is bonded to engineered stamped and pierced metal sheets to create a very durable fire and ballistic rated panel that installs similar to "dry wall"
